[About Delta Dental](#)

Delta Dental of Idaho provides a wide range of innovative dental plans for employer groups with 3 or more employees. Delta Dental offers voluntary plans for groups with 10 or more employees.

Almost nine out of ten dentists in Idaho are members of the Idaho Dental Premier network, making it the largest in the state. Nationwide more than 114,000 dental offices are members of Delta Dental's network.

Premier plans offer the most comprehensive benefit designs with traditional fee-for-service dental benefit plans. All of our Premier plans encourage preventive care. Member dentists agree to fee increases and dental policy limitations, so there are no out-of-pocket surprises for employees and fewer problems for employers.

Delta Dental PPO plans offer employees and employers maximum flexibility and value pricing.

Employees can choose any dentist, including dentists within the Premier

network, the PPO network or a dentist who is not in any network.

Delta Dental is the only PPO plan in the state with access to both the PPO and the Delta Premier networks. So even employees who choose to go to a Delta Dental Premier provider are protected from paying any charges beyond the dentists' Delta Premier fees.

Dentists in the PPO network agree to provide care based on a lower fee schedule and employees who choose these dentists will receive the highest level of benefits and the lowest out-of-pocket costs. Employees will also receive the highest level of benefits when the employee uses a specialist who participates in the Premier network, even if the specialist is not a PPO participating dentist.
